

*If this house could talk,  
it would dare you to compare  
its blazing Internet speeds to your own.  
You'd hear words like "killer online gaming"  
and "ultimate business tool." It would brag about  
the ultimate technology running through it  
— just like thousands of other fiber optic homes  
in the Hill Country — all powered by GVTC.*

*So, what would your house say?*

**GVTC**<sup>®</sup>  
COMMUNICATIONS

Just plain smart.®
